EDUCATION

Bachelor of Science, Software Engineering

Kielce, Poland

Kielce University of Technology

Oct 2023 – Feb 2027 (Expected)

SKILLS

- **Programming Languages/Concepts**

Python, JavaScript, Java(learning), HTML, CSS, Bootstrap, C (basic), C++ (basic), OOP, Data structures&Algorithms, Problem Solving

- **Tools & Technologies**

PyOpenGL, Pygame, OpenGL, Git, GitHub, PostgreSQL(learning), Cisco Packet Tracer, IntelliJ IDEA, Visual Studio Code, Operating Systems, Linux (Ubuntu, WSL), Bash scripting, Python automation, Docker (learning), Kubernetes (learning)

PROJECTS

Programming Languages Visualizer | Python, PyOpenGL, OpenGL

[GitHub](#)

- Developed an interactive 3D visualization application for exploring programming language trends from 1990 to 2024.
- Implemented hardware-accelerated graphics rendering with dynamic camera controls, zoom functionality, and real-time tooltips.
- Visualized multi-dimensional metrics including popularity rankings, AI/ML suitability, and OS development capabilities across 10+ languages.
- Built a comprehensive data model with historical trends and interpolation for 34 years of language evolution

Car Rental System (Mobile App) | React Native, Expo, JavaScript [University Coursework]

[GitHub](#)

- Shipped a cross-platform mobile app with 20+ screens, dual navigation (stack + tabs), and a luxury-themed responsive UI; integrated Firebase Auth/Firestore for real-time bookings, profiles, favorites, and secure license verification (camera upload).
- Built advanced browsing and booking flows (filters, availability checks, conflict validation), plus device sensor features (accelerometer shake-to-favorites, camera) and polished docs/screenshots; production-ready configs for EAS builds.
- Collaborated with a teammate, leveraging AI-assisted coding tools to accelerate implementation while maintaining a clear commit history and protected licensing

ACHIEVEMENTS

- **2nd Place** in Provincial Competitive Programming Olympiad – Achieved 2nd place among approximately **600 participants** in a programming competition held in Namangan Province.
- **1st Place** in Regional Informatics Olympiad (2019–2021) – Earned **1st place for three consecutive years** in annual informatics competitions organized at the regional level.
